g/m ²	90
Filigranata Lune	4063

NORMALIZZATA FILIGRANATA LUNE

Composizione impasto:

Carta realizzata con fibre di pura cellulosa vergine ECF (Elementary Chlorine Free).

Carta di sicurezza con filigrana a fondo pieno e in chiaro-scuro che reagisce ad alcali, cloro, solventi organici, corrector bille e scolorina. Contiene fibre fluorescenti visibili alla lampada di wood.

Applicazioni:

Carta studiata appositamente per la realizzazione di assegni, titoli, tickets, buoni sconto e altro.

Caratteristiche ecologiche:

- Completamente riciclabile e biodegradabile
- Cellulosa bianchita impiegando processi ECF (Elementary Chlorine Free)
- 94/62/CE (assenza di metalli pesanti)

Composition :

Papier fabriqué avec des fibres de pure cellulose vierge ECF (Elementary Chlorine Free).

Filigrane papier de sécurité qui réagit à l'alcali, au chlore, aux solvants organiques et aux fluides correcteurs. Il contient des fibres fluorescentes qui sont visibles sous rayons ultra-violetes.

Applications :

Papiers expressément pensés pour les chèquiers, les papiers de certificats, les tickets, les coupons et autres.

Caractéristiques écologiques :

- Entièrement recyclable et biodégradable
- Cellulose blanchie en utilisant les procédés ECF (Elementary Chlorine Free)
- 94/62/CE (absence de métaux lourds)

Pulp composition:

Papers and paperboards realized with ECF (Elementary Chlorine Free).

Watermarked security paper which reacts to alkali, chlorine, organic solvents and corrector fluids. It contains fluorescent fibres which are visible under ultra violet light.

Applications:

Papers specially made for cheque papers, bond papers, tickets, discount and others.

Ecological characteristics:

- Completely recyclable and bio-degradable
- Pulp bleached using ECF (Elementary Chlorine Free) process
- 94/62/CE (heavy metal absence)

Composición de la pasta:

Papel fabricado con fibras de pura celulosa ECF (Elementary Chlorine Free).

Papel de seguridad con marca al agua que reacciona a alcales, cloro, solventes orgánicos y fluidos correctores. Contiene fibras fluorescentes que son visible a los rayos ultravioletos.

Aplicaciones:

Papel pensado particularmente para cheques, títulos, documentos, coupons para descuentos y otros.

Características ecológicas:

- Completamente riciclabile y biodegradabile
- Celulosa blanqueada empleando procesos ECF (Elementary Chlorine Free)
- 94/62/CE (sin presencia de metales pesados)
